City Council Report

Date: November 2, 2009
To: City Council
Through: Bryan Raines, Deputy City Manager
From: Edward Quedens, Business Services Director
Subject: Purchase of Two (2) Replacement Heavy Duty Construction Grade Trucks for the Water Resources Department (Fully Funded by FY 09/10 Vehicle Replacement Fund)
(Contract #2009172)
"Citywide" contract

Purpose and Recommendation

Council is requested to approve the Purchase of Two (2) Replacement Heavy Duty Construction Grade Trucks with 5/6 Yard Dump Bodies as recommended. Bid pricing was obtained and evaluated by the Fleet Services Department and the Purchasing Division.

The Purchasing Division recommends awarding the contract to the lowest, responsive and responsible bidder, McCandless of Arizona at \$226,570.92, including applicable sales tax.

Background/Discussion

This purchase of two (2) heavy duty construction grade trucks equipped with hydraulic systems and 5/6 yard dump bodies will be replacing vehicles that have been incurring higher operating costs that are no longer efficient to operate. Both of the vehicles to be replaced have met established criteria for replacement, model year 1986 with 116,037 miles and 1986 with 90,937 miles. These old vehicles will be retired from the City's fleet. The replacement dump trucks will be utilized by the Water Resources Department to haul construction materials for the maintenance and repair of City underground utilities.

Four responsive bids were received in September 2009.

Alternatives

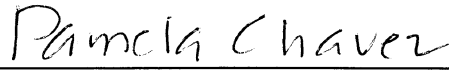

Council may choose not to award this contract and new bids will be obtained.

Fiscal Impact

The total amount of \$226,570.92 is available in the Fleet Services Department's Vehicle Replacement Program budget.
