ORIGINAL INTERMENT DATE: \_\_\_\_\_

\_\_\_\_\_

The interment process is meant to be permanent. While every effort possible is made to avoid any damage during the disinterment process, time and the elements may have compromised the structural integrity of the casket and/or outer container and damage may occur.

The outer containers were not designed to be removed from the grave space. Care will be taken to not unnecessarily damage the outer container or the casket, but the cemetery cannot be held responsible if damage occurs.

A mortuary representative is required to be present during the disinterment. A disinterment/re-interment Arizona state permit may be required and would be obtained by the family.

I, \_\_\_\_\_ hereby certify that I am a family representative and have legal right to make this authorization. I release the City of Mesa and the City of Mesa Cemetery from all liability.
