

Audit, Finance, Enterprise Committee Report

Date: January 9, 2019
To: Audit, Finance and Enterprise Committee
Through: Kari Kent, Assistant City Manager
From: Marc Heirshberg, Director Parks, Recreation and Community Facilities
Subject: Parks, Recreation and Community Facilities Department Fees and Charges (Citywide)

Purpose and Recommendation

The purpose of this report is to submit for review and consideration recommended changes to fees and charges for certain services provided by the Parks, Recreation and Community Facilities (PRCF) Department.

The PRCF Department, in conjunction with the Parks and Recreation Advisory Board, requests the Committee's approval of changes for the recommended FY 2019-20 and FY 2020-21 Schedule of Fees and Charges, as summarized in this report and detailed in the attached document. The Fees and Charges if approved by City Council will be effective as of April 1, 2020, as is the historical practice of fee implementation for the PRCF Department to coincide with summer program registration.

Background

The PRCF Department offers diversified programs and services at facilities that include parks, recreation centers, swimming pools, sports fields, a golf course, stadiums, convention center, amphitheatre and cemetery. The Department relies on its ability to generate revenues via fees and charges to provide these services and maintain its facilities. Fees and charges are continually monitored in order to adapt to program costs and current market and economic conditions and are adjusted accordingly within the ranges approved by Council and published in the Fees and Charges Schedule.

Each year in October, PRCF staff contact neighboring municipalities to gather data to compile a market comparison survey of fees and charges for similar program and service offerings. The Parks and Recreation Advisory Board Fees and Charges Subcommittee members review and consider changes to the fee schedule and make decisions based on participant capacity, market demands, and fee structures of other cities prior to presenting the recommended changes to the Parks and Recreation Advisory Board. With the majority of changes being focused on fee structure simplification, terminology/verbiage changes, and range adjustments in programs

and services to allow for ongoing market flexibility.

Discussion

The Department is proposing ranges for program fees which will allow for maximizing capacity in programs while providing flexibility to adjust fees to achieve cost recovery and respond to changes in market conditions. Detailed below are the related programs with new or adjusted fee ranges recommended for approval.

Commercial Facilities:

The fiscal impact with the changes recommended in the Commercial Facilities is \$16,925 for FY 2020-21.

Hohokam Stadium

Eliminate fee categories that are no longer utilized.

Increase League/Tournament Fees to meet customer needs and requirements and to assist with cost recovery.

City of Mesa Cemetery

Eliminate fee categories that are no longer utilized.

Decrease range in older sections to reflect current practice.

Dobson Ranch Golf Course

Updates to reflect fee structure to be put in place with Paradigm Golf Group management contract.

Mesa Convention Center and Amphitheatre

Eliminate fee categories that are no longer utilized.

Update fees for simplification and readability.

Expand fee ranges and update units to allow for broader negotiating terms based on various factors such as day of the week, length of the event, number of events on site, etc.

Establishment of new fees for services or areas that have been requested from various users.

Parks and Recreation:

There is an estimated fiscal impact of \$23,290 for FY 2020-21.

Aquatics

Adjustment of various fees to help offset minimum wage increases.

Renaming of passes to reflect seasonal and/or year-round use.

Addition of FlowRider fees to distinguish from swimming lesson fees.

Park Use

Simplification of water hook up fee to reflect current practice.

Recreation Center/Gymnasiums

Webster, Jefferson and Eagles. Adjust semester pass range to help offset minimum wage increase and offer additional types of passes.

Red Mountain Center. Decrease lower end of range for Youth Activity Center at RMC to encourage potential rental use.

Sports Complex Field Use

Remove Riverview Sports Complex and add Eastmark Sports Complex.

Increase top of range to cover increased staffing costs on holidays.

Sports Leagues

Decrease lower end of range to allow individuals to register as single players as opposed to a team.

Alternatives

1. Take no action. Maintain the fees and charges for services provided by the Department at current levels. No fiscal impact on current revenue projections based on the existing fee structure would result.
2. Recommend alternative adjustments to the proposed fees and charges. The fiscal impact of this decision would depend on the changes proposed.

Fiscal Impact

There is an anticipated fiscal impact of \$40,215 in FY 2020/21 with the adjustments outlined in this report. Recommended changes continue to simplify the PRCF Fees and Charges Schedules and maintain current cost recovery goals of the PRCF's vastly diverse programming while also recognizing Parks and Recreation's role in the community to provide affordable, accessible programs and facilities to its citizens. Staff continues to reassess cost recovery strategies in all programs and also pursues opportunities for maximizing revenue generation through program partnership and sponsors.

Coordinated With

The recommended fees and charges were coordinated with the Parks and Recreation Advisory Board and the Office of Management and Budget.

Schedule of Fees & Charges
