*Working to inspire
sustainable urban living
in the community!*

ALL ABOUT MUG

Mesa Urban Garden (MUG) is a non-profit community garden in the heart of Mesa's downtown.

Our mission is to inspire sustainable urban living through education, community involvement and creative cooperation to strengthen families and enhance and beautify our neighborhoods.

The garden offers 100+ garden beds, including handicap-accessible beds, to lease out to individuals, groups, or sponsors in the community. There are also communal beds that are tended to by volunteers where the yields are made available to community members in need – which also includes food bank donations.

Come be a part of this community-centered organization and get in on all of the fabulous events, classes, and workshops that MUG has to offer!
